

The following spreadsheet Charts the Daily performance of the three markets that make up the Trilogy Spread namely; the E-mini S&P (Trading Symbol ES), the E-Mini NASDAQ (Trading Symbol NQ) and the E-mini Dow (Trading Symbol YM).

The spreadsheet, in the Daily Prices section, shows the opening and closing prices for each day. In the Daily Trades section, depending on the signal for the day, we either buy or sell the opening and exit the trade on the close.

The total performance for the year as totaled on the bottom of the spreadsheet is as follows:

ES	NQ	YM
\$ 9,455	\$ 13,465	\$ 10,375
